FISCAL IMPACT STATEMENT

LS 7187

BILL NUMBER: SB 260

NOTE PREPARED: Dec 31, 2002

BILL AMENDED:

SUBJECT: Waiver of Preexisting Conditions.

FIRST AUTHOR: Sen. Paul

FIRST SPONSOR:

BILL STATUS: As Introduced

**FUNDS AFFECTED: X GENERAL
DEDICATED
FEDERAL**

IMPACT: State

Summary of Legislation: This bill provides that an individual policy of accident and sickness insurance or a group policy of accident and sickness insurance under which a certificate of coverage is issued to an individual member of a nonemployer-based association or discretionary group may contain a waiver of coverage for a specified condition under certain circumstances. The bill specifies that an offer of coverage under a policy that includes a waiver does not preclude eligibility for an Indiana Comprehensive Health Insurance Association Policy.

Effective Date: July 1, 2003.

Explanation of State Expenditures: This bill would allow for individual insurance policies, association group policies, and discretionary group policies that are not employer-based to include a waiver of coverage not exceeding five years in length. (Current statute provides for a maximum 12-month exclusion for preexisting conditions.) In addition, the bill contains a provision that the insurer review the underwriting basis for the waiver one time per year upon request of the insured and remove the waiver if the insurer determines that evidence of insurability is satisfactory. The waiver of coverage cannot be for coverage of a condition required under state or federal law or for a developmental disability. The impact on the state, if any, is a potential decrease in demand for ICHIA policies. The impact upon the number of ICHIA policies issued will depend upon the number of people willing to forgo coverage for a waived condition in order to obtain regular insurance.

Background: ICHIA is the high-risk insurance program offered by the state. ICHIA is funded through premiums paid by individuals obtaining insurance through ICHIA, by assessments to member companies (insurers, health maintenance organizations, and others that provide health insurance or health care coverage

in Indiana), and the state General Fund. To be eligible, Indiana residents must show evidence of: (1) denied insurance coverage or an exclusionary rider; (2) one or more of the "presumptive" conditions such as AIDS, cystic fibrosis, or diabetes; (3) insurance coverage under a group, government, or church plan making the applicant eligible under the federal Health Insurance Portability and Accountability Act (HIPAA); or (4) exhausted continuation coverage (e.g., COBRA). Premium rates must be less than or equal to 150% of the average premium charged by the five largest individual market carriers.

The excess of expenses over premium and other revenue is made up by assessments on member insurance carriers. The Employee Retirement Income Security Act (ERISA) prevents assessments against self-funded insurance plans. Members may, in turn, (1) take a credit against Premium Taxes, Adjusted Gross Income Taxes, or any combination; or (2) include in the rates for premiums charged for their insurance policies amounts sufficient to recoup the assessments. The amount of assessments that are recouped by insurance carriers through tax credits or premium increases is not known at this time. Total expenses for the ICHIA program for CY 2001 were \$93.1 M with premium contributions of \$31.7 M and assessment receipts of \$61.4M. Enrollment in the ICHIA program as of August 2002 was 9,779.

Explanation of State Revenues: See *Explanation of State Expenditures*, above, regarding the ICHIA program.
